EXPERIENCE

MDP Solutions

Lima, Perú

Programador Full Stack

2022 - 2023

- High ability to understand assigned work, and achieve the goals established during projects.
- High performance in team and individual work, keeping up with my colleagues with more experience.
- Assertive and effective communication with colleagues and superiors.

MAJOREL

Lima, Perú

Content Moderator

2020 - 2022

- For more than 10 consecutive months I exceeded the established goal of productivity, punctuality, and calibration at work.
- Streamline the video review process by 20% in order to increase the number of cases reviewed per day and thus increase my productivity without losing the quality of moderation.
- Help foster and promote a better climate for teamwork by reducing calibration errors by 60%.
- Outstanding performance that managed to gain the trust of my team leaders to support them in the inductions of new members.
- Team manager on an interim basis.

KONECTA

Lima, Perú

Telemarketer

2020 - 2020

- High capacity to resolve customer problems and conflicts with the company.
- Recognition for punctuality and responsibility.

SIDE PROJECTS

SoyClara Redesign

Angular, NodeJS, MySQL

| 2021 - 2022

In this project we were commissioned to redesign the Soy Clara website, redesign the Landing Page, as well as add some features and new functionalities to the Admin Page, in addition to adding new tables, joins and procedures in the database.

MDP - Proyecto de Rebuild and Redesign: Novedades REDEBAN

HTML, CSS, Javascript, Angular, Mongo, SpringBoot, Java | 2022 - 2023

This project had the goal of rebuilding the Administration page of the Novedades Service of the Redeban company. Here we focus on updating the Page design, adding new features, and making the page more user-friendly and intuitive using a new Stack to make the page more scalable and up to date.

MDP - Proyecto de Rebuild and Redesign: Boton Cloud REDEBAN

HTML, CSS, Javascript, Angular, Mongo, SpringBoot, Java | 2022 - 2023

This project had the goal of rebuilding the Administration page of the Transactions and Commerce service of the Redeban company. Here we focus on updating the Page design, adding new features, and making the page more user-friendly and intuitive using a new Stack to make the page more scalable and up to date.
